PROFESSIONAL SUMMARY

Frontend developer with 2 years of experience building web applications with JavaScript, TypeScript, React, and Next.js. Currently developing a real estate AI rendering and virtual homestaging platform (Viupik) for European clients. Previously built a business website and a WhatsApp automation bot with Node.js for appointment management and client routing. Comfortable working with AI-assisted development tools (Cursor, Windsurf). Experienced in collaborative production environments, debugging complex UI logic, and integrating frontend interfaces with AI-powered backend pipelines.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Redux, Next.js
Backend: Node.js, Express.js, Python, MongoDB
Cloud: AWS infrastructure management
Tools: Git, Cursor, Windsurf, AI-assisted development, Manual Testing, Web Design

WORK EXPERIENCE

Frontend Developer – Viupik | Dec 2025 – Present
- Developing frontend components for a real estate AI image rendering and virtual homestaging platform using React, TypeScript, and Next.js.
- Built batch rendering UI with workspace folder system (collapsible groups, dynamic placeholders) and debugged complex chained rendering logic.
- Integrated AI-powered tool pipelines (homestaging, wall/floor editing, image enhancement) with frontend modal interfaces featuring dynamic pre-filled recommendations.
- Collaborating with a European team in production environment management and continuous deployment workflows.

Web & App Developer & Admin Assistant – Marssela Rosso | Jan 2024 – Nov 2025
- Designed and developed the business Website
- Built a WhatsApp automation bot (Node.js, whatsapp-web.js) for appointment booking, automated reminders, and client routing.
- Managed client scheduling, administrative workflows, and document organization for the business.

EDUCATION

- Full stack Developer – Digital House (2025 – Present)
- Frontend Developer – Coderhouse (2024 – 2025)
- Technical Degree in Programming – UCES (2023 – 2025)
